

How To Recycle and Dispose of Large Appliances, Furnishings, Fixtures and Construction Waste

Hi-rise living can pose a real challenge in disposing of large unwanted household items and construction waste. At Summit Chase we make every effort to address this problem through a variety of methods. Residents should be aware that the Board and Management are absolutely committed to ensuring that these rules are followed.

Click on the **Chaser Classifieds** link under the **News Tab** on our website (www.summitchasecondo.com) and swap, sell or give away your items.

All construction waste including, but not limited to, cabinetry, wood, toilets, sinks, carpeting, floor coverings, paint, hardware etc are to be disposed of OFF-SITE by the contractor / subcontractor.

It is the responsibility of the unit owner to ensure that this is done. It is also the responsibility of the homeowner to ensure that plumbing, electrical and similar work is performed by licensed, and insured contractors and subcontractors. All such contractors must be approved by management in advance of any work being done. Access to the building will be denied to any contractors who are not in compliance with these policies.
